Illicit Trade in Small Arms and Light Weapons in All Its Aspects, held in New York from 7 to 11 July 2003,[2]

Convinced of the importance of national, regional and international measures to combat trafficking and illicit circulation of small arms, including those measures that could be adapted to regional approaches,

Acknowledging the capacity of the Organization for Security and Cooperation in Europe, as a regional arrangement under Chapter VIII of the Charter of the United Nations, to provide a substantial contribution at the regional level to the process in the United Nations on combating the illicit trade in small arms and light weapons in all its aspects, taking into account regional particularities,

Taking note of the adoption in November 2000 of the Organization for Security and Cooperation in Europe document on small arms and light weapons,

Also taking note of the work done so far in the framework of the Organization for Security and Cooperation in Europe to develop best practice guides related to the control of small arms and light weapons, and acknowledging that a handbook gathering these best practice guides could also be useful to other Member States in their efforts to implement the United Nations programme of action on small arms and light weapons with a view to combating their illicit trade,

1. *Reaffirms* the importance of measures to prevent, combat and eradicate the illicit trade of small arms and light weapons in all its aspects, including ongoing efforts at the regional and subregional levels;

2. *Commends* the progress that has already been made in this regard by organizations in various regions and subregions and, in this context, the progress made so far in drawing up best practice guides to prevent, combat and eliminate illicit trade in small arms and light weapons among Organization for Security and Cooperation in Europe participating States, and the hope expressed in it to see this process rapidly come to a positive conclusion;

3. *Invites* all Member States that have not yet done so to examine the possibility of developing and adopting regional and subregional measures, as appropriate, to combat the illicit trade of small arms and light weapons and contributing to international peace and security.
